Facials

DermaPlane & Gel Peel\$100

This introductory hydroxyl acid treatment is designed to minimize the appearance of surface lines, smooth out rough skin texture, aid in clearing acne, & fade hyper-pigmentation.

Micro Peel\$65

A micro peel will improve your skin texture, color, and overall appearance as well as decrease the apparent size of your pores. Many experience improvement in superficial crepe paper wrinkles.

Deep Pore-Cleansing\$60

This treatment is for congested pores, and is designed to reduce oil while hydrating the skin.

Clinical Acne\$55

This treatment is designed to calm and correct acne-prone skin and may be used on the face, chest, or upper back.

Blemish + Age\$55

This adult-acne protocol is designed to promote blemish-free and youthful-looking skin.

Sensitive Skin\$55

This treatment is designed to help calm and soothe compromised skin including reducing erythema, irritation, and inflammation associated with problematic or rosacea skin types.

Redness Neutralizer\$55

This treatment provides cooling, soothing relief for redness and flushing that often accompanies rosacea, while improving the appearance of rosacea skin.

DermaPlaning.....\$55

DermaPlaning is a simple and safe procedure for ex-foliating the epidermis and ridding the skin of fine vellus hair.

Teen Facial.....\$55

Designed to unclog pores and help with acne & breakouts. Treatments begin with a skin analysis and consultation.

Schedule a consultation and we can customize a facial for your skin.

We also offer the coolsculpting CoolMini™ that eliminates fat under your chin.

Thermage

Face, neck, eyes, body* \$1500 per treatment.

**body is one treatment area, e.g. buttocks, thighs, stomach*

A great solution for skin tightening and contouring, Thermage® treats aging skin by using a focused radio-frequency energy to strengthen collagen in your skin for a smooth, sleek look that can help you feel years younger.

PRP Hair Restoration

\$1200 per treatment.

Platelet-Rich Plasma (PRP) is a procedure where blood is drawn from the patient and spun down to extract the plasma. Using a patient's own plasma and injecting it into sparse or thin areas of hair allows for the hair to thicken and hair loss to decrease. PRP is said to be most beneficial for those who are experiencing the early stages of thinning and those whose hair is inherited.
